**HDF Eyepieces**  
User Guide and Guarantee

0716

## Care and cleaning

Opticron HDF eyepieces require little maintenance but occasionally the outside surface of the eyelens will need cleaning. To avoid damaging this surface please read the following carefully.

- (i) Gently remove excess dirt and dust using a compressed air device or blower brush. Caution: Hard and persistent rubbing of dirty surfaces can cause abrasive scratches on the surface of the glass which may distort viewing.
- (ii) Breathe on exposed glass surface and then wipe with an optical cleaning cloth (code 30277) in a circular motion until the surface is clean again.

Do not attempt to dismantle the eyepiece as this will invalidate the guarantee.

## Guarantee

Opticron HDF Eyepieces are of a very high quality both in their

performance and construction.

We guarantee some parts in these instruments for up to 10 years under the following conditions:

- (i) In the case of defects attributable to faulty processing or materials, we will assume responsibility for the labour and material costs during the first 5 years after purchase. We reserve the right to decide whether defective parts should be repaired or replaced.
- (ii) During the next 5 years we will assume responsibility for material costs only, charging corresponding labour costs.
- (iii) We will accept no liability for damage caused by incorrect use, water penetration or for any repairs or actions which have been carried out outside our firm.
- (iv) Parts such as rubber eyecups and rubberised coatings etc. are excluded from the guarantee.

This guarantee is in addition and does not affect your statutory rights.
